Vacuum Seal By Pepe Jeans London Body sculpting, body firming and body supporting - that's the magic of Vacuum Seal, Pepe Jeans London's new and exclusive denim fabrication, launched for spring/summer 2015. Drawing upon a new weaving technology, Vacuum Seal does exactly what it suggests, sartorially speaking: supporting and lifting shape and silhouette via 100 per cent stretch denim (you'll find 100 per cent elasticity), which is just as comfortable as it is fashion-led. As you move, it moves with you, as though bespoke to your body. Masterminds in denim, Pepe Jeans London has been innovating and designing with the humble blue thread for over 40 years. Vacuum Seal is the latest among its fashion stable of original creations. For more information: www.pepejeans.com
