FALKE Running

Exercise in the fresh air while enjoying nature: Outdoor running is very popular and offers beginners and competitive athletes the best training opportunities. Optimal clothing that supports the athlete should not be missing.

For the first time, the FALKE running collection is divided into a Performance Core Collection and a seasonal, fashionable capsule. Both collections feature high breathability and perfect heat regulation. Thanks to stretch and a perfect fit, the garments sit comfortably on the body and do not restrict the wearer during sports.

Performance Collection - Characteristic of the Performance Collection is its high functionality combined with a simple design. The individual pieces are available in black and grey, with highlights in FALKE red. Shirts, running trousers, shorts, as well as a jacket and waistcoat are all part of the functional range that is part of every runner's basic equipment.

Running Capsule - red tones, pink and orange set the tone for the ladies. A fresh mint is also available. For men, blue tones are in the foreground, primarily in combination with a sporty yellow green. Clean white and black are the combination partners. Running trousers in various lengths and fits, from tight-fitting to loose fit, meet all requirements. Shirts with striped details and logo placement on the back are new in the collection. Zip shirts and jackets are the perfect companions for colder temperatures. The windproof and water-repellent materials ensure that sports in the fresh air are fun even in uncomfortable weather.

Running socks

The FALKE RU4 and RU4 Short socks will be available in new two-colour combinations in autumn/winter, matching the seasonal colours of the rest of the collection. A new addition is the FALKE RU4 Short with striped details, which are also found on the outerwear. In keeping with FALKE's history, there will once again be a FALKE RU4 with the historic FALKE logo, which adorns a combination of the company name and a falcon.
