Stillness

FALKE is going on a relaxing journey through nature in Autumn/Winter 2021. Special natural phenomena such as icy snow landscapes, rising fog and rough sandstorms are the sources of inspiration for the new season and can be found in modern designs on warming boat socks, a casual sneaker and elegant knee-high socks.

Snow and Frozen - Winter blues, white, ecru and brown are in the foreground of the capsule. Quiet, expansive blankets of snow are symbolic of the sensitive articles FALKE Iceberg and FALKE Soft Winter, which adorn abstract patterns of frozen surfaces and lie comfortably on the leg thanks to their pressure-free cuffs. The FALKE Arctic Crest, whose pattern is reminiscent of a mountain massif in snow, goes well with a sporty look.

Mist - The blur of fog forms the basis of the capsule, with broken white and grey being the most important colours. A fine tie pattern reminiscent of translucent walls of fog gives the FALKE Quiet Vision its elegant look. The highlight is a print knee-high sock made of wool-silk for special occasions.

Dust - Sand tones and terracotta dominate the capsule's appearance. As the name suggests, FALKE Sedimentation stylises different layers of stone as patterns. Print items reminiscent of rough boats, dusty desert and barren rocky landscapes are not to be missed.

Seasonal Basics - The men's collection is rounded off with four new articles. In addition to two socks with Vichy check and herringbone design, the athleisure styles are adorned with colour blocking. These two socks are made of organic cotton and feature a reflective logo print in sock or short sock length.
